# WELLNESS

## MEDICAL WEIGHT LOSS

Our medically administered Semaglutide injections curb the appetite, reduce cravings & reduce cardiovascular risks. Patients lose an average of 20 lbs. in 12 weeks.

## EMsculpt Body Contour

Our weight loss patients benefit from EMsculpt as it compensates for the loss of muscles caused by weight loss, regaining up to 16% more muscle & burning up to 20% more fat, without any downtime

# HAIR LOSS AWARENESS

## PRP *Hair Restoration*

- Addresses hair loss
- Thickens hair shaft
- Prolongs hair growth phase
- Fast, safe in-clinic treatment

*PRP injections deliver growth factors to the hair follicles, promoting new hair growth and strengthening existing strands*

***Complimentary Session  
with purchase of 3 sessions***
